=Save X=Cancel M=Modify R=Reorder S=Sub Catalogs

- If you see some items without a description, you should delete the SKUs for those items since they no longer exist. Place the cursor in the SKU field, hit the enter key and answer yes to the question if you wish to delete the item.
- You can follow the same sequence above to remove items

from the catalog. Items with zero quantity on hand will not display on the webpage. You can run the report, POS.RP.4.5, to get a report on the catalogs with the items and the Q0H to help you determine which items should be removed from a catalog because the item will no longer be stocked.

- Next, select the R=Reorder from the bottom prompt.
